

How will this project impact Iowa's agricultural industry?

Explain how the proposed project addresses one of the program components:

- Innovative agricultural products and processes
- Innovative and new renewable fuels
- Agricultural biotechnology, biomass and alternative energy
- Organic products and emerging markets

Do the Business' processing or manufacturing activities add value to Iowa commodities or livestock? If yes, explain:

- What commodity or livestock will be used for this project?
- What will be the annual utilization?
- What is the dollar value added to that commodity annually?
- How many Iowa agricultural producers will be directly impacted as commodity suppliers?

Does the Business have Iowa producer or farmer ownership? If yes, state the number and percentage of ownership.

Is the facility located in a rural region of Iowa?

Is a co-product produced at the facility? If yes, will it be marketed in the same locality?

Does or will the Business use in-state suppliers of inputs or feed stocks for processing or manufacturing? Explain.

What measurements will be used to gauge the project's success?
